The undersigned hereby makes application for service at the above address and agrees to pay for said service as measured by the System's meters, according to the System's Standard Rules and Regulations.

The applicant agrees to be responsible for all water consumed upon the premises from date of installation, and to permit authorized agents of the System free access to the premises of the consumer for the purpose of inspecting, reading, examining, repairing or removing meters or other property belonging to the System.

The applicant shall provide the necessary space on or in the premises for the location, safe keeping and protection of pipes, devices, meters and meter boxes. The applicant shall see that at all times the meter and meter box be accessible to the meter readers or other employees of the WITT UTILITY DISTRICT. The applicant is strictly forbidden to interfere with or allow other to interfere with the meters or other appliances of the Company.

The applicant agrees to pay a monthly minimum charge at the Company's current rate whether any water is consumed or not.

The applicant agrees to notify the System when the applicant desires said service discontinued and agrees to pay for said service for a reasonable time after each notice, in order to permit the System to read or remove meters and render bill.

It is further understood that this application or agreement is subject to the Standard Rules and Regulations of the System, on file and open for inspection at the office of the System, and said rules and regulations are hereby made a part of this agreement.

A fire line tap on a 4-lane road is \$5,000.00 for an 8" pipe plus road bore, and \$150.00 for every foot after.

All of the above are subject to local and state tax.

TO ALL CUSTOMERS: Bills should be received by the first day of the month. WUD IS NOT RESPONSIBLE IF YOU DO NOT RECEIVE YOUR BILL. It is the customer's responsibility to contact WUD to inquire about the amount of the bill. If you fail to pay your bill by the tenth of the month, you will be charge a penalty of 10% of your balance due. Failure to pay your bill by the 19th of each month will result in a \$50.00 service charge and water will be shut off on the 20th of each month. THE \$50 SERVICE CHARGE WILL STILL BE OWED EVEN IF WATER SERVICE IS NOT INTERRUPTED. The full amount of the bill (including all fees) will be owed in order for water service to not be interrupted or turned back on. No water will be turned back on after 3:00 p.m. daily, weekends, or holidays. There will be a \$30 service charge for all returned checks. These charges are subject to change at any given date by the board of directors.

Cross Connection Meters- Witt Utility does not remit any connections with our water such as well, with the city, etc. Not only is this very dangerous for you as well as our other customers, but the Witt Utility Board of Commissioners also prohibits it. This policy grants Witt Utility authorization to inspect customer's premises annually. If anyone should violate this policy, their service with Witt Utility will be corrected, or terminated. One meter is required per household. No exceptions. Duplex and apartments require one meter per unit.

Customers are responsible for a shut off valve in their home. The meter shut off is property of Witt Utility and not to be tampered with by customers.

Board meetings are the third Thursday of each month at 4:30 P.M.

Cross-Connection Control Plan For Witt Utility Water System

Goal:

The goal is the Witt Utility Water System to supply safe water to each and every customer under all foreseeable circumstances. Each instance where water is used improperly to the possibility of backflow threatens the health and safety of our customers and threatens our chances of realizing this goal. The possibility of backflow due to improper use of water within the customer's premises is especially significant, because such cross-connections may easily result in the contamination of our water supply mains. Such situations may result in the public water system becoming a transmitter of disease organisms, toxic materials or other materials of other hazardous substances which may adversely affect many people. The only protection against isolation of such hazards from the water supply lines is by professionally installed approved backflow prevention devices. **Private wells and city water cannot be connected in any way.**

Plan of action:

The Witt Utility System is determined to take every reasonable precaution to see that all cross-connections are not allowed to contaminate the water being distributed to its customers. This cross-connection plan outlines the program of action designed to control cross-connection within the area served by the Witt Utility System. This plan is intended to be a practical guide for safeguarding the quality of water distributed from becoming contaminated or polluted through backflow.

Authority of Controlling Cross Connections:

As of January 12, 1987, by the Board of Commissioners, it is attached to the plan as Appendix 1. This policy prohibits cross-connections within the water system, authorizes the water system to make inspections of the customer premises, requires that cross-connections hazards be corrected and provides for enforcement. This policy expresses a clear determination on the part of the Board of Commissioners that the water system is to be operated free of cross-connections that endanger the health and safety of those depending upon the public water supply. This policy is considered sound basis for controlling cross-connection hazards by the operating Staff and management of Witt Utility District Water System. The provision contained within the policy are in keeping with the requirements set forth in Section 68-13-711 of The Tennessee Code Annotated and Section 1200-5-1-17(6) of the Tennessee Department of Health and Environment Rules governing Public Water System.
